18th International Conference
Applied Computing
VIRTUAL ➞ 13 - 15 October ➞ 2021

Types of Contributions
Panels« Invited Talks« Doctoral Consortium« Corporate Showcases«

Topics of Interest
All areas related to Applied Computing are of interest, including, but not being limited, to the following areas:

Application Fields
- eCommerce and ePayment
- eLearning
- eHealth and eSports
- IT services
- Mobile computing
- Knowledge management and distribution

Fundamental Concepts and Engineering
- Algorithms
- Data bases and data mining
- Information Systems
- Information sourcing and aggregation
- Programming languages and concepts
- Security and Privacy

Communication
- IoT
- Industry 4.0
- Mobile Systems and Networks
- Protocols, Standards and Mark-up Languages
- Sensor Networks
- WWW Applications and Technologies

Usability
- Automation of Services
- Human-centred Computing
- Multimedia and Visualization
- Modalities of User Interfacing
- Personalization and empathic systems
- Virtual Reality

Performance
- Distributed and parallel systems
- Cloud Computing
- Evaluation and Assessment
- Intelligent systems
- Large-scale applications
- Local and distributed storage

Hardware scope
- Embedded Computing
- Environment-friendly Constructions
- Mobile Aspects
- Realization of IoT nodes
- Security concepts and devices
- Wideband Information streaming

Important Dates Check at the website
